

The gold standard for consistency and quality!

Dakota Gold CCDS is a safe, economical liquid feed ingredient source known for quality and consistency, produced in the ethanol process by industry leader POET.

In addition to excellent nutritional qualities, Dakota Gold CCDS is a highly palatable, economical liquid feed ingredient predominantly used in ruminant diets. Commonly mixed in TMR's or blended with low quality forages, it provides a unique blend of highly digestible protein, energy and key minerals. A highly attractive, economical liquid feed ingredient paying dividends in animal performance and ration cost.

- Recommended for beef and dairy diets
- Excellent source of highly digestible protein and energy
- Best results when used in a TMR

Dakota Gold®

Corn Condensed Distillers Solubles

DRY MATTER

Protein, Fat, Energy, Fiber

Item	Value ^{1,2}
Dry Matter, %.....	39.06
Crude Protein, %	21.00
Crude Fat, %.....	22.34
Crude Fiber, %.....	0.58
ADF, %.....	3.61
NDF, %.....	6.54
Ash, %.....	9.26
NE _L , Mcal/cwt3	115
NE _M , Mcal/cwt3	126
NE _G , Mcal/cwt2	89

Minerals

Item	Value ^{1,2}
Calcium, %.....	0.08
Phosphorus, %.....	1.60
Sodium, %	0.29
